## Cookies test

I've noticed an issue with logging into this website. Occasionally, even after I successfully log in and start browsing, I suddenly find that I've been logged out without any apparent reason. It's a bit perplexing because I would expect to remain logged in for a continuous session. This sporadic logout disrupts my experience as I have to re-enter my credentials repeatedly. I'm unsure if there's a specific pattern causing this, but it's definitely an inconvenience that affects my ability to seamlessly use the website.

Because of this problem I could not test properly. Here is some ss for evidence

The screenshot shows the Zafenity website's login page. At the top, there is a navigation bar with the Zafenity logo and links for Home, Find Agents, Find Services, and Login. Below the navigation bar, a dark blue banner features the text 'Home / Login' and a large 'Login' button. The main content area is white and contains a login form. The form has a heading 'Please, Log in to your account to access further information'. It includes two input fields: one for the email address 'faisal.crusherslabqa@gmail.com' and another for the password, which is masked with dots. There is a 'Remember me' checkbox and a 'Forgot password?' link. A red 'Log In' button is positioned below the password field. At the bottom of the form, there is a link that says 'Don't have an account yet? Register.'

## Service Seeker

### Home Buyer

- Create Projects
- Assign Agents
- And Also Get Free Home Inspection

### Home Seller

- Select A Real Estate Agent
